

UPDATED BEERS CRITERIA FOR OLDER ADULTS

2015 Medication Management Webinar Series

The next webinar of the 2015 PACE Medication Management Webinar Series is **Updated Beers Criteria for Older Adults**. These webinars are intended to share pharmacologic evidence and best practices for managing medications in our PACE population. This webinar is specifically intended to provide **updated information for PACE prescribers and nurses and provide guidance in applying to participant care.**

Learning Objectives:

- Describe changes from the 2012 AGS Beers Criteria to the 2015 update
- Identify drugs to be avoided or used with caution in older adults
- Describe lower risk alternative options in older adults
- Apply criteria to avoid high risk medications in patient case scenarios

Presenters:

Kevin T. Bain, PharmD, MPH
VP Medication Risk Mitigation, CareKinesis Inc.

Emily J. Schwartz, PharmD
PGY1 Pharmacy Resident in Geriatric Personalized
Medicine & Targeted Therapeutics, CareKinesis, Inc.

To participate, please register for this free webinar by
COB December 14, 2015 at RSVP@CareKinesis.com or fax this
page to **856-234-7957** (the CK administration fax).
